POPULATION BY SEX, AGE, CONJUGAL CONDITION, ETC.,  
FOR THE SOCIAL AREAS OF VANCOUVER AND WINNIPEG

This bulletin gives final population figures by sex, conjugal condition, age, racial origin, religious denomination, birthplace, period of immigration, naturalization and citizenship, schooling, and official language and mother tongue, for the social areas of Vancouver and Winnipeg as of the 1941 Census.

Prior to the 1941 Census an arrangement was made between the Census Branch of the Bureau of Statistics and the Councils of Social Agencies of the cities of Vancouver and Winnipeg to have 1941 Census data compiled for certain social areas of these cities. The areas provided for were drawn up by the social agencies in co-operation with the Census Branch. Due to the fact that there have been a number of requests from these cities for 1941 Census figures by social areas it has been decided to publish the data in the form of a bulletin.

Presentation of Tables

(The tables dealing with racial origin, birthplace, and mother tongue are divided into two parts since the principal origins, birthplaces and mother tongues are somewhat different in the two cities.)

(1) Includes persons "not at school" and years of schooling "not stated".

(2) Persons shown "At school" are those who had attended school any time between September 1, 1940 and June 2, 1941.

(3) The number of children under 15 years is shown by five-year age groups in Table 2. Since most children reporting school attendance are between 5 and 15 years of age, the number in this age group may be compared with the number reporting school attendance. In order that the population 10 years and over with less than 5 years of schooling may be compared, the children under 10 years of age should be subtracted from the total in the schooling group 0-4 years.

(1) Comprend les personnes "non à l'école" et années d'école "non données".

(2) Les personnes données comme "à l'école" sont celles qui ont été à l'école un temps quelconque entre le 1er septembre 1940 et le 2 juin 1941.

(3) Le nombre d'enfants de moins de 15 ans est indiqué par groupes d'âge de cinq ans dans le tableau 2. Comme la plupart des enfants qui déclarent leur fréquentation scolaire ont de 5 à 15 ans, le nombre de ce groupe d'âge peut être comparé à celui des enfants qui déclarent leur fréquentation scolaire. Pour que la population de 10 ans et plus ayant moins de 5 années d'école puisse être comparée, les enfants de moins de 10 ans devront être soustraits du total dans le groupe, selon les années à l'école de 0-4 ans.
